

Adult Tobacco Use**Tobacco Use Status (All Types of Tobacco)****Types of Tobacco Use by Current Users (Statewide)****Program Objective: Prevent Initiation of Tobacco Use**

Do you agree that: "There are so many things that cause cancer, tobacco use is not going to make any difference"

	Group	95% CI	State	95% CI
Strongly or somewhat agree	15.6%	(13.8-17.5)	13.9%	(12.9-15.1)
Somewhat disagree	12.7%	(11.0-14.8)	10.9%	(9.8-12.1)
Strongly disagree	71.6%	(69.2-74.0)	75.2%	(73.7-76.6)

How old were you when you started smoking? [Among adult ever-smokers]

	Group	95% CI	State	95% CI
First tried using cigarettes	15.2 yrs	(14.9-15.5)	15.6 yrs	(15.4-15.8)
Started regularly smoking	17.8 yrs	(17.6-18.1)	18.3 yrs	(18.1-18.5)

What are the rules about smoking in your home?

	Group	95% CI	State	95% CI
It is not allowed at all	78.0%	(75.8-80.0)	79.3%	(77.9-80.6)
It is allowed sometimes	11.5%	(9.9-13.2)	12.2%	(11.2-13.4)
It is allowed all the time	10.5%	(9.1-12.2)	8.5%	(7.6-9.4)

During the past year, did you buy or give tobacco to anyone who is under age 18?

	Group	95% CI	State	95% CI
Yes	2.8%	(2.1-3.7)	2.4%	(2.0-3.0)
No	97.2%	(96.2-97.9)	97.6%	(97.0-98.0)

Program Objective: Promote Quitting Among Current Tobacco Users

Readiness to Quit, from the "Stages of Change" model [Among current tobacco users]

	Group	95% CI	State	95% CI
Precontemplative – not interested in quitting	17.4%	(14.1-21.3)	18.2%	(15.5-21.1)
Contemplative – interested, but not ready	55.2%	(50.4-59.9)	54.8%	(51.3-58.4)
Preparation – ready to make a quit attempt	27.4%	(23.2-32.0)	27.0%	(23.9-30.4)

On average, about how many cigarettes do you smoke per day? [Among current daily smokers]

	Group	95% CI	State	95% CI
Average number per day	19.4	(18.0-20.8)	17.6	(16.7-18.5)

During the past year, have you not used tobacco for one day or longer because you were trying to quit?

[Among current and recent tobacco users]

	Group	95% CI	State	95% CI
Yes	62.9%	(58.1-67.3)	64.0%	(60.6-67.3)
No	37.1%	(32.6-41.8)	36.0%	(32.7-39.4)

Do you agree or disagree with the following statement: "People close to me were/are upset by my using tobacco"

[Among current and recent tobacco users]

	Group	95% CI	State	95% CI
Agree	56.3%	(51.8-60.7)	61.4%	(58.2-64.7)

Program Objective: Eliminate Exposure to Secondhand Smoke*In general, would you say that breathing secondhand smoke is annoying to you?*

	Group	95% CI	State	95% CI
Very annoying	50.9%	(48.4-53.5)	60.1%	(58.5-61.7)
Somewhat annoying	32.3%	(30.0-34.7)	27.1%	(25.7-28.6)
Not too annoying	16.7%	(14.9-18.7)	12.8%	(11.7-13.9)

Do you think that breathing secondhand smoke is harmful?

	Group	95% CI	State	95% CI
Very harmful	53.2%	(50.6-55.8)	63.6%	(62.0-65.2)
Somewhat harmful	38.0%	(35.5-40.5)	30.8%	(29.2-32.3)
Not too harmful	8.8%	(7.4-10.4)	4.0%	(4.9-6.5)

Are you exposed to Secondhand Smoke while at work? [indoors only, among people with jobs outside the home]

	Group	95% CI	State	95% CI
Exposed 1+ hours per week	33.4%	(30.6-36.3)	29.6%	(27.8-31.6)

Has anyone smoked in your house in the past month?

	Group	95% CI	State	95% CI
Smoking occurred in home	17.1%	(15.2-19.1)	15.7%	(14.5-16.9)

Do you think that smoking should be completely banned in restaurants?

	Group	95% CI	State	95% CI
Yes	56.5%	(54.0-59.0)	61.8%	(60.2-63.4)

If smoking were completely banned in restaurants, would you eat out more often/less often/or would it make no difference?

	Group	95% CI	State	95% CI
More often	14.2%	(12.4-16.0)	17.2%	(16.1-18.4)
Less often	6.7%	(5.6-8.0)	6.2%	(5.5-7.1)
No difference	79.1%	(77.0-81.1)	76.6%	(75.2-77.9)

Do you agree that all CHILDREN should be protected from secondhand smoke?

	Group	95% CI	State	95% CI
Strongly agree	79.2%	(77.1-81.2)	83.4%	(82.1-84.6)
Somewhat agree	13.3%	(11.6-15.1)	10.9%	(9.9-12.0)
Strongly or somewhat disagree	7.5%	(6.2-9.0)	5.7%	(4.9-6.6)

Program Objective: Build Capacity to Support Local Tobacco Prevention & Control Efforts*To the best of your knowledge, has there been a local anti-tobacco or anti-smoking organization working in your community over the past few years?*

	Group	95% CI	State	95% CI
Yes	13.2%	(11.7-15.0)	13.6%	(12.6-14.7)
No	65.6%	(63.2-67.9)	63.6%	(62.1-65.2)
Don't know	21.2%	(19.2-23.3)	22.8%	(21.5-24.1)

Generally speaking, how often do you see young people, people under age 18, smoking in your community?

	Group	95% CI	State	95% CI
At least weekly	78.6%	(76.4-80.7)	78.1%	(76.7-79.4)
Less than weekly, or never	21.3%	(19.3-23.6)	21.9%	(20.6-23.3)

Do you agree that laws banning possession of tobacco products by minors (children under 18) have been enforced?

	Group	95% CI	State	95% CI
Strongly or somewhat agree	45.1%	(42.6-47.6)	43.6%	(42.0-45.2)
Strongly or somewhat disagree	49.2%	(46.7-51.7)	49.7%	(48.1-51.3)
Don't know	5.7%	(4.6-7.0)	6.7%	(5.9-7.5)

Does your health insurance coverage pay for the cost of any help to quit using tobacco, such as a stop-smoking program or nicotine patches, pills, or other medications? [Among current and recent tobacco users]

	Group	95% CI	State	95% CI
Yes	25.3%	(23.8-33.4)	25.5%	(22.2-29.0)

****34% of current tobacco users statewide did not know whether their insurance covered such a program****

Indicators of Pro-Tobacco Activities

Tobacco companies should have the same rights to advertise their products as other companies.

	Group	95% CI	State	95% CI
Strongly or Somewhat agree	46.5%	(44.0-49.1)	40.0%	(38.4-41.6)
Somewhat disagree	13.5%	(11.9-15.4)	14.3%	(13.1-15.4)
Strongly disagree	39.9%	(37.4-42.5)	45.8%	(44.1-47.4)

Some tobacco companies make promotional items like clothing, hats, bags or other things with their brand on it. Would you ever use or wear something that has a tobacco company logo or picture on it?

	Group	95% CI	State	95% CI
Yes	26.6%	(24.4-29.0)	19.7%	(18.4-21.0)
No	73.3%	(71.0-75.6)	80.3%	(79.0-81.6)

Do you currently have a piece of clothing, or other item that has a tobacco brand or logo on it? [Among people who said they were willing use such an item]

	Group	95% CI	State	95% CI
Yes	50.8%	(45.9-55.6)	49.1%	(45.4-52.7)
No	49.2%	(44.4-54.0)	50.9%	(47.3-54.6)

During the past year, have you received a free sample or coupon for a free sample of cigarettes or other tobacco products?

	Group	95% CI	State	95% CI
Yes	15.7%	(14.0-17.7)	15.7%	(14.5-16.9)
No	84.2%	(82.3-86.0)	84.3%	(83.1-85.5)

Demographics of Respondents

People who answered the telephone survey were asked a few questions about themselves. Statistical weights were applied so that approximately half of the respondents were measured as women/men, and to represent age distributions similar to the state. Other characteristics are as follows.

What is the highest level of education that you have completed?

	Group	95% CI	State	95% CI
Less than HS	8.1%	(6.7-9.7)	7.9%	(7.1-8.8)
HS diploma or GED	24.9%	(22.8-27.1)	25.6%	(24.3-27.0)
Some or more college	67.0%	(64.6-69.3)	66.4%	(64.9-67.9)

What is your income?

	Group	95% CI	State	95% CI
Less than \$25,000 per year	10.7%	(9.3-12.4)	13.5%	(12.4-14.6)
\$25,000 - \$50,000 per year	45.5%	(42.9-48.1)	46.6%	(44.9-48.3)
More than \$50,000 per year	43.7%	(41.1-46.4)	39.9%	(38.2-41.6)

What is your race/ethnicity?

	Group	95% CI	State	95% CI
White, non-Hispanic	89.7	(87.8-91.4)	89.3%	(88.1-90.4%)
People of Color	10.3%	(8.6-12.2)	10.7%	(9.6-11.9%)

Where did this information come from?

A telephone survey of more than 9,500 Washington State adult residents was conducted by the Department of Health in October-December 2000. At least 200 adult surveys were completed in every Washington County. This survey was conducted in English language only. Estimates may not represent the true population values, because individuals without telephones and/or non-English speaking persons would not be able to participate.

Data collected by the Washington State or locally-supported Behavioral Risk Factor Surveillance System (BRFSS) surveys to describe tobacco use should be considered more reliable than data presented here, because BRFSS surveys are conducted throughout the year to avoid effects of seasonality. Data represented in this report were collected in the fall, when tobacco use rates may be different than a year-long average from BRFSS. Estimates of current tobacco use presented here include use of *any* tobacco products, while BRFSS typically describes only current cigarette use *or* smokeless tobacco use.

Data presented are age and gender-adjusted to correct for participation biases, to represent the true distribution of residents in Washington State.

Analyses were conducted using Stata 7.0 and SPSS 7.5.

Data Definitions

“Never” Tobacco User

Individuals who had never used more than 5 packs of cigarettes in their lifetime, and who did not report using any type of tobacco (cigarette, smokeless, cigar, bidi, clove, pipe) within the past 30 days.

Former Tobacco User

Individuals who reported using 5 or more packs of cigarettes in their lifetime, but did not report any use of tobacco within the past 30 days. It should be noted that this would not capture past regular users of smokeless tobacco, cigars, pipes, or other non-cigarette tobacco products.

Current Tobacco User

Individuals who reported using 5 or more packs of cigarettes in their lifetime and current smoking on “some days” or “every day,” or any other type of tobacco use within the past 30 days.
